

# ABDULLAH KAHRİMAN

## PERSONAL INFORMATION

**Address** : Darıca/Kocaeli, Turkey  
**Phone** : +90 (554)-438-28-83  
**Mail** : kahrıman.abdullah@gmail.com  
**Date of Birth** : 19.06.1994  
**Military Service** : Completed  
**Marital Status** : Single  
**Driver's License** : B

## QUALIFICATIONS

### ● COMPUTER SKILLS

**Programming Languages** : C#, JS

**Database Technologies** : MS SQL, PL SQL, SQLite, Ado.Net, Entity Framework, EF Core, Linq, XML, JSON

**Technologies & Frameworks** : Asp.Net MVC, Asp.Net Core, Web API, Web Services, HTML, CSS, AngularJS, Angular2+ (TypeScript), Javascript, jQuery, WebForm, Redis, RabbitMQ, SignalR

**Concepts & Patterns** : OOP, SOLID

**Tools** : Visual Studio, SQL Server Management Studio, TFS, GitHub, PLSQL Developer, Power Designer, Bitbucket, Jira, Azure

### ● FOREIGN LANGUAGE

**English** : Intermediate level.

## EDUCATION

Ahmet Yesevi University,	Management Information Systems – M.Sc.,	2025 -
Anadolu University, 2019	Business Administration – B.Sc.,	2015 -
Kirklareli University, 2015	Computer Programming – Associate Degree,	2013 -

## WORK EXPERIENCE

### 01.2026/Present : Senior Software Development Specialist / Doruk Otomasyon

- Designed a high-performance Calculation Engine that processes large-scale datasets in real time, running complex statistical and analytical algorithms.
- Optimized RESTful API architectures and DTO structures to minimize network payload and client-side processing costs.
- Established a centralized and reusable Business Logic layer shared across different modules, enforcing DRY principles and sustainable code architecture.
- Implemented detailed exception handling and data validation structures in API response mechanisms, ensuring system stability and data integrity in edge cases.
- Integrated backend services with modern front-end tools, enabling high-volume analytical data to be visualized in the browser without performance loss.

Technologies: .NET Core, MediatR, CQRS, Angular 19+, EF Core, PostgreSQL, Redis, RabbitMQ, SignalR.

### 06.2024/09.2025 : Senior Software Development Specialist / AssisTT

- Developed scalable and asynchronous RESTful APIs for high-throughput enterprise systems, optimizing overall system performance.
- Designed secure integration layers enabling complex data synchronization between different third-party applications and internal systems.
- Improved complex database queries (Query Optimization) and ORM processes to prevent bottlenecks in high-concurrency environments.
- Standardized logging and error tracking infrastructure, significantly reducing mean time to resolution (MTTR) for production issues.
- Applied design patterns and SOLID principles to improve code quality (Clean Code) and testability across systems.

Technologies: .NET Core, MediatR, CQRS, Angular, EF Core, MSSQL, PostgreSQL, Redis, RabbitMQ.

### 05.2021/02.2024 : Software Development Team Lead / Dijital Kurye

Technologies: .NET Core, MediatR, CQRS, Angular, EF Core, MSSQL, ABP.io Framework, Redis, RabbitMQ, SignalR.

### 08.2019/05.2021 : Senior Software Development Specialist / Digilera Bilgi Teknolojileri A.Ş.

Developed custom web forms, Windows services, console apps, WCF, ASP.NET MVC, and Web API applications for insurance companies. Delivered bug fixes and new modules for

Mapfre, Quick, and Neova in Hasar Online, Eksper Online, Servis Online, and Service Center systems.

**11.2017/07.2019 : Software Development Specialist / Manta Teknoloji ve Bilişim Sistemleri**

Developed custom and enterprise projects as a Back-end Developer per client requirements. Worked primarily with .NET, .NET Core, Web API, JavaScript, AngularJS, SQL, and PostgreSQL technologies, keeping up with emerging trends.

**11.2015/11.2017 : Software Development Specialist / Nano Bilgisayar ve İletişim Hizmetleri A.Ş.**

Developed custom and enterprise projects as a Back-end Developer per client requirements. Worked primarily with .NET, JavaScript, AngularJS, and SQL technologies. Also served at Konecta under an outsourcing agreement while working at Nano Bilgisayar.

**CERTIFICATIONS**

- (06/2015) – Microsoft  
Microsoft C# .NET - ITA2015YAZ1001
- (06/2015) – Microsoft  
Microsoft SQL Server - ITA2015YAZ1001
